New Access Road Completed!

A new access road into the property was completed in October. Improvements, such as widening, culverts, and elimination of steep grades were also made along the entire length of the existing AAARC road. The new access road shortens the distance into the property and creates private access. Although gravel surfacing will need to be done in the future the road is vastly improved over what existed before. The following photos depict some of the road improvements.

Shopping On Line Now Benefits AAARC

Just in time for the holiday shopping season the A. Austin Amerine Retreat Center (AAARC) is listed with two charity online shopping malls. These malls act as a portal for hundreds of well known stores such as Best Buy, Barnes and Noble, and Office Depot. What this means for us and for you is that for every on line purchase you make, the AAARC receives a donation from the charity mall.

This is how it works: go to www.Igive.com or www.Freewillfunding.com register with the mall and select the A. Austin Amerine Retreat Center as the organization to receive credit from your purchases. Select the merchant you want to shop at and you will be sent to that merchant's website to shop. When your purchase is concluded the Retreat Center will get a percentage of the sale at no cost to you. You shop directly on each merchant's website, receiving their regular prices or discounts (Igive.com also has special periodic discounts). The only difference is you simply access your favorite merchant sites through the online mall so the AAARC can receive a percentage of the sale. What better way to support the AAARC without costing you a penny!

As both online charity malls have hundreds of popular merchants to choose from you will undoubtedly find your favorite stores listed. Tell your family and friends who shop online to use the malls; every purchase helps the AAARC.

AAARC to Sell Mistletoe for the Holidays

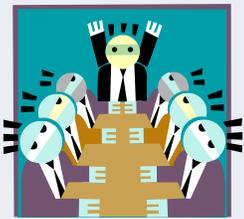

Looking for a quick fundraiser for your organization? The AAARC is harvesting

Mistletoe from its property and packaging it as a fundraiser. The AAARC is offering bags of mistletoe for \$3.00/bag. Sold in lots of 10 bags, each bag includes a sprig of mistletoe tied to a red ribbon and a scroll with the description on the history and mythology surrounding this ancient custom.

Organizations can easily sell each bag for \$5.00/bag, making at least \$20.00 on each lot of 10. Payment can be made via Pay Pal or by check and bags are shipped the next day.

This is a great way to support the AAARC and raise some easy money for your church or other group. Contact Mel Johnson at mel@aaarc.org to order your mistletoe or for further information.

News from the AAARC

AAARC Launches New Website

The new AAARC website debuts this month. Go to www.aaarc.org to view the new website.

Surplus Property For Sale

The AAARC has re-listed several of its parcels for sale which are not part of the long range plan for development of the retreat center. If you know of anyone who might be interested in purchasing one of these beautiful parcels of land have them contact us. This land is offered at a great price and it would be wonderful to have one or more of our supporters as neighbors.

More Wildlife Sightings

In the last issue of *On Board* it was reported that deer, coyote, wild pigs, turkeys, mourning doves, California quail, rabbits and bear have been seen on the property. There have now been sightings of a mountain lion, bobcat, raccoon, and numerous hawks and other birds. With the construction of the new road a sort of wildlife highway has been created where many different species are using the road on a regular basis to transverse the property.

Board Member Profile –Keith Kunkel

Keith was born in Berkeley, California and went to camp for the first time at Mt Diablo, California in his 5th summer. After a few years of YMCA camp, it was the Boy Scouts in Ohio and then off to work at Lutheran Memorial Camp in Fulton, Ohio. Keith attended Ohio State and then after a few years of maximum impact camping at the USAF Survival School in Spokane, Washington he decided to spend a few years inside. In 1991 he made the mistake of complaining about progress on the AAARC project and was given two boxes of files and a report to complete that was six months past due. Since then he has wandered up and down the west coast looking for someplace that could be suitable for everything he thought the AAARC should have. He now lives in San Francisco working for the University of California so he can afford to go up to Lake County a couple times a month.
